

Long Island Golden Retriever Club, Inc.

# LIGRC CODE OF ETHICS

**Goal:** It is the intent of the Long Island Golden Retriever Club, Inc. to undertake, support and promote breeding programs which would continue to improve or maintain the quality of the breed. As minimum requisites for assuring improvement or maintenance of the quality of the progeny, careful attention must be paid to the soundness, natural ability, tractability and conformation to breed standard of the sire and the dam.

The Long Island Golden Retriever Club endorses the following Code of Ethics for its members. It is the purpose of LIGRC to encourage its members to perfect through selection, breeding and training the type of dog most suitable in all respects for work as a companionable gun dog, and to do all in its power to protect and advance the interests of Golden Retrievers in every endeavor.

## RESPONSIBILITIES AS A DOG OWNER

Members must ensure that their dogs are kept safe and under control at all times. Members should properly train their dogs so that they are an asset to their community and not a nuisance. Dogs must be maintained with their safety and good health in mind at all times, including adequate and appropriate attention and socialization, grooming, feeding, veterinary attention, housing, routine care, exercise and training.

## RESPONSIBILITIES AS A MEMBER OF LIGRC

Members' responsibilities include educating the public about the breed, keeping in mind that they and their dogs represent the breed, LIGRC and the sport of purebred dogs in general.

Members are urged to accept the written Breed Standard as approved by the American Kennel Club (or the other applicable governing body of the country in which they reside or exhibit) as the standard description of physical and temperamental qualities by which the Golden Retriever is to be judged.

Members are required to maintain good sportsmanship at all events and competitions, abiding by the applicable rules and regulations set forth by the governing bodies for such events and competitions. Members' conduct should

always be in accord with the purposes and intent of the LIGRC Constitution and By-Laws.

1. Membership in LIGRC is dependent on adherence to the Code of Ethics adopted by LIGRC. The Annual Membership Renewal Application and the Membership Application will be amended to include a signature indicating willingness to abide by the Code of Ethics that is adopted.
2. Enforcement of violations of the adopted Code of Ethics will be enforced as per the Constitution and By-Laws of LIGRC.
3. The use of the LIGRC's Puppy Referral service will be dependent on a signed agreement to abide by the adopted Code of Ethics.
4. It is strongly recommended that puppies placed by breeders as pets only be sold with American Kennel Club Limited Registrations, spay/neuter contracts, or on a co-ownership basis with the breeder.
5. All puppies sold by LIGRC members must be registrable, and the breeder must supply the purchaser with registration paperwork in a timely manner, preferably within one month of purchase of the puppy unless otherwise stated in the purchase contract.

## RESPONSIBILITIES AS A BREEDER

LIGRC members who breed Golden Retrievers are encouraged to maintain the purpose of the breed and are expected to demonstrate honesty and fairness in dealing with other owners and breeders, purchasers of dogs and the general public. Owners of breeding animals shall provide appropriate documentation to all concerned regarding the health of dogs involved in a breeding or sale, including reports of examinations such as those applying to hips and eyes. If any such examinations have not been performed on a dog, this should be stated.

Breeders should understand and acknowledge that they may need to take back, or assist in finding a new home for, any dog they produce at any time in its life, if requested to do so.

Members who breed should sell puppies, permit stud service and/or lease any stud dogs or brood bitches only to individuals who give satisfactory evidence that they will give proper care and attention to the animals concerned, and who may be expected generally to act within the intent of the statement of this Code of Ethics. Members are encouraged to use clear, concise written contracts to document that sale of animals, use of stud dogs, and lease arrangements, including the use, when appropriate, of non-breeding agreements and/or Limited Registration. Members should not sell dogs at auction, to brokers or commercial dealers.

## ADVISORY GUIDELINES

Breeding stock should be selected with the objectives of LIGRC in mind, that is:

Recognizing that the Golden Retriever breed was developed as a useful gun dog, to encourage the perfection by careful and selective breeding of Golden Retrievers that possess the appearance, structure, soundness, temperament, natural ability and personality that are characterized in the Standard of the breed, and to do all possible to advance and promote the perfection of these qualities. (Paraphrased from Article I, Section 2, of the GRCA By-Laws, as amended in 1995).

LIGRC members are expected to follow AKC requirements for record keeping, identification of animals and registration procedures. Animals selected for breeding should:

- (i) Be of temperament typical of the Golden Retriever breed; stable, friendly, trainable and willing to work. Temperament is of utmost importance to the breed and must never be neglected;
- (ii) Be in good health, including freedom from communicable disease;
- (iii) Possess the following examination reports in order to verify status concerning possible hip dysplasia, hereditary eye or cardiovascular disease, and elbow dysplasia:
  - a. Hips: for U.S. dogs a report from Orthopedic Foundation for Animals; or PennHip at 24 months of age or older. For dogs outside the U.S., report from a health registry approved by the Golden Retriever Club of that country (e.g. Canada - Ontario Veterinary College; Great Britain - BVA/KC Hip Score) a report from the accepted health registry of another country may be used for U.S. dogs that are 24 months of age or older when x-rayed.

- b. Eyes: appropriate report from a Diplomate of the American College of Veterinary Ophthalmology (ACVO), or from a BVA/KC approved ophthalmologist (Great Britain), or a report from the Canine Eye Registry Foundation. For dogs outside the U.S., a report from an ophthalmologist as recommended by the Golden Retriever club of that country after 1 year of age. Examinations must be done within 12 months of a breeding.
- c. Hearts: appropriate report from a Diplomate of the American College of Veterinary Medicine, Cardiology Specialty or a certification by the Orthopedic Foundation for Animals by a cardiologist (the number will be followed by a C) at 12 months of age or older.
- d. Elbows - for U.S. dogs, a report from Orthopedic Foundation for America at 24 months of age or older. For dogs outside the U.S., report from a health registry approved by the Golden Retriever club of that country at 24 months of age or older. A report from the accepted health registry of another country may be used for U.S. dogs that are 24 months of age when x-rayed.

Breeders of Goldens in the U.S. who use health registries from other countries should fully reveal their reasons for doing so. Consideration should be given also to other disorders that may have a genetic component including, but not limited to: epilepsy, hypothyroidism, skin disorders (allergies) and orthopedic disorders such as osteochondritis.

- (iv) Assuming all health and examination reports are favorable, the age of the breeding pair also is of consideration. Generally, a Golden Retriever is not physically and mentally mature until the age of 2 years; an individual dog's suitability as a breeding animal is difficult to assess until that time.

Adopted: May 27th, 1998 by LIGRC Board of Directors and members

Revised: May 2001 to include elbow clearances.
